Over the years, we've grown and expanded our horizons, becoming a beacon of flavor and taste.

SADAT CITY

STATE OF THE ART

A close-up photograph of an olive tree branch. The branch is covered with small, dark green, oval-shaped olives and silvery-green leaves. The background is a soft, out-of-focus green, suggesting a lush outdoor setting. The lighting is natural, highlighting the texture of the leaves and the roundness of the olives.

Nestled in the heart of Sadat City, Egypt, our state of **the art food** processing facility is where the magic happens. We source the finest ingredients to create a diverse range of culinary delights.

OF DELIGHTS

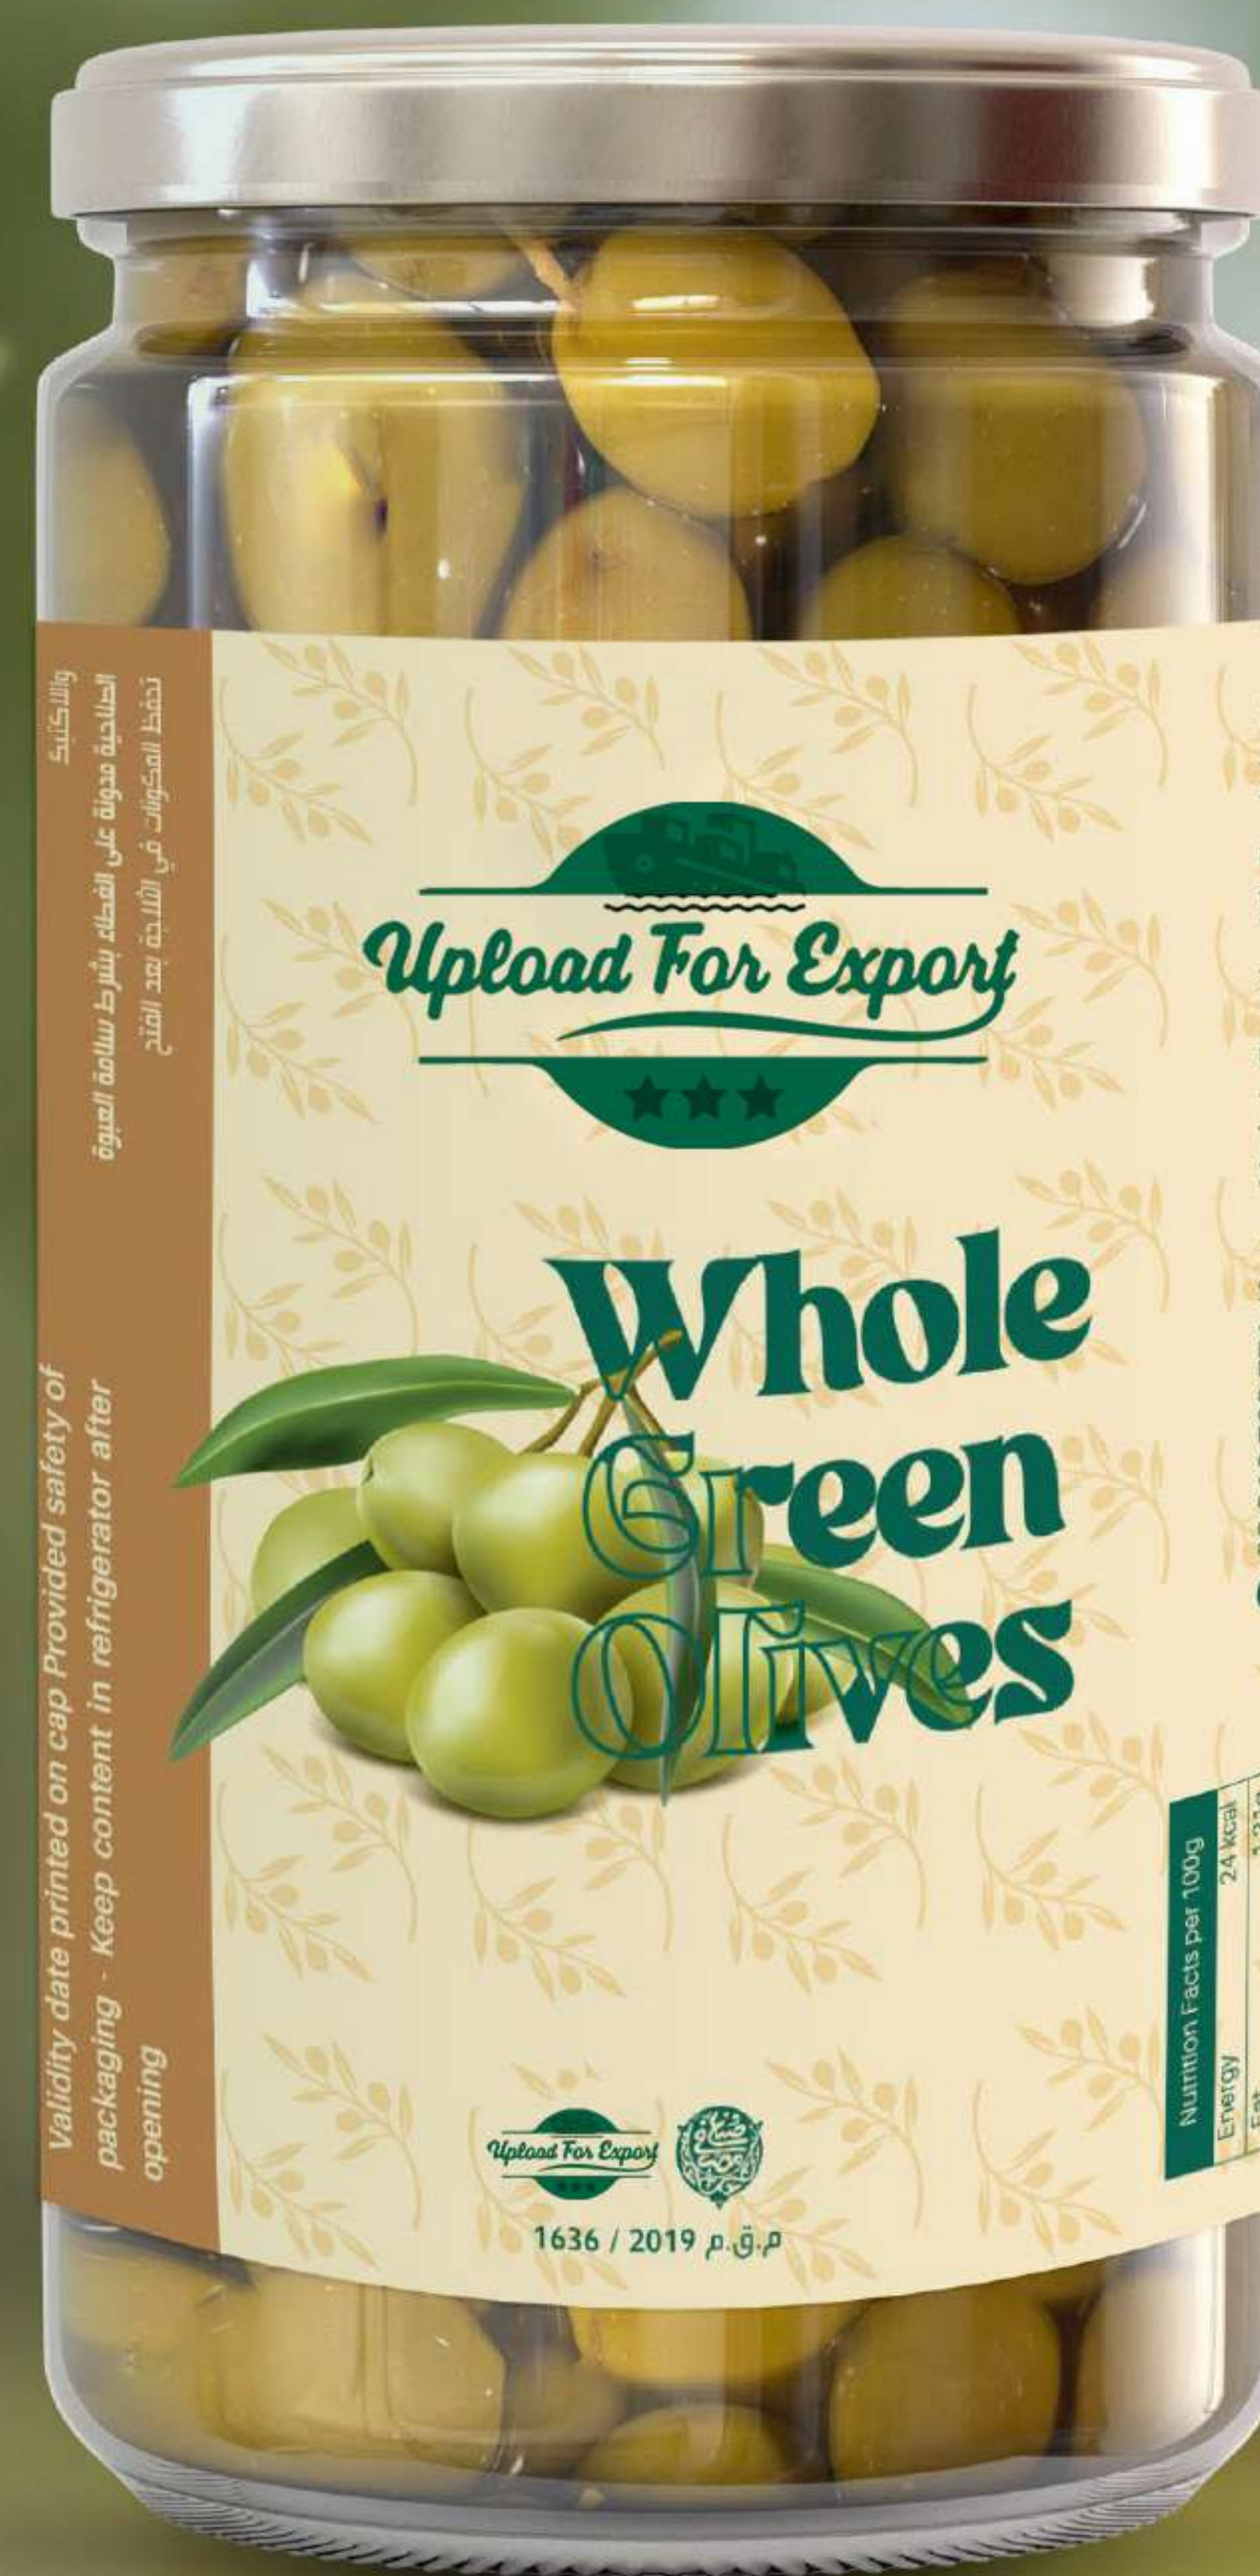

Our story is one of transformation.

What started as an olive trading venture has blossomed into a culinary heaven that now includes a medley of delights - from green olives to natural pica olives, pitted green olives, sliced green olives.

Whole Green Olives

Unique fusion of textures and tastes. Bursting with the natural goodness of whole Olive.

A top-down view of a wooden cutting board. In the center, a small white bowl is filled with bright green olive oil, with a single pitted green olive floating in it. To the left of the bowl, several dark, glossy black olives are scattered. Above the bowl, a cluster of small, dark peppercorns is piled. Further up, several pitted green olives are arranged, some showing their hollowed-out centers. The board is dusted with coarse salt and some olive oil residue. A dark grey cloth is visible in the top right corner.
